

Recovery Residence for Women

Home sweet hope

Youville Recovery Residence for Women

Youville's mission is to operate residential recovery facilities for women who experience the co-occurring issues of addiction, mental health distress and a history of abuse. In a unique home-like setting, Youville promotes recovery by providing its clients with holistic counselling and programming services that strive to meet the physical, emotional, spiritual, occupational, and social needs of each client. For women who are mothers and who might otherwise avoid recovery for fear of being separated from their children, Youville additionally offers accommodations and programs that keep families intact and that allow mothers and their children to remain together during recovery.

Youville provides services for women eighteen years of age and older who have addictions, experiences of abuse, and mental health distress, in a unique, long-term residential care treatment program facility located in southwest Calgary. Youville is a two-phase treatment program with safe, caring, homelike facilities, which are integrated into the community. We also offer a Day Treatment component of the program which needs expansion to meet client needs. Outreach services, individual counselling, and group counselling sessions are the core aspects of the programs. The residential program currently has the capacity to serve thirty-seven women, four with their children. Youville ensures the support of professional and compassionate counsellors for the women in their care. Youville promotes healing and facilitates personal growth by providing a unique program appropriate to the individual needs and strengths of each client. Youville guides women through the transition into the community to lead productive and rewarding lives.
